To the Farmers of Vermont.

It has incidentally come to my knowledge that you occasionally make complaints because of the small sums received for your dairy skins. The fault is your own, for if you would take them off and properly care for them you would rarely find a skin that bring you less than fifty cents, and a great many of them would bring you sixty, seventy and even eighty cents each. Poor skins, like poor butter, are poor property and bring a poor price. It will cost you only a penny for a postal card on which to send me your address, to secure full printed directions as to the proper method of taking off and caring for your calf-skins. I will very gladly mail these to you free, post-paid, if you will send me your name and so request. In most of the towns of Vermont I have buyers, but in localities where I have none I would suggest that a half dozen farmers club together and ship their skins in quantities of twenty-live or more, in which case I will now all freights of ter It has incidentally come to my knowledge in quantities of twenty-five or more, in which case I will pay all freights after delivery at the railroad depot. When afflicted with nervousness, "female weaknesses," sick headache, and the numerous diseases peculiar to their sex there is necessity for contemplation, and for "tears," but when they consider that there is a sure remedy in Dr. Pierce's Favorite Prescription for all such "female complaints," there is reason for "smiles."
